Nukewatch is a well-established anti-nuclear organization, concerned both about nuclear weapons and nuclear power. They monitor all nuclear developments throughout the world. Their quarterly newsletter is published by the Progressive Foundation. John LaFarge is its founder.

Rev. Bruce Johnson, minister of the Duluth UU church, will join us to make up the snow day we missed in April. Rev. Bruce always has an interesting and thought-provoking message for us. And it's potluck Sunday on top of that!
