

February Calendar

The hybrid model for programming which combines people gathering at the church with others linked in remotely through ZOOM will continue for the foreseeable future since we are scattered geographically and have various abilities/inclinations to travel to Rice Lake. While the services begin at 10, the zoom room will be open at 9 for those who wish to engage in conversation about a variety of topics and issues.

<i>Date</i>	<i>Time</i>	<i>Program</i>	<i>Presenter/facilitator</i>

Rev. Terry's service will call our attention to the Gaelic ritual cycle observance of Imbolc, February 1st. It celebrates the midpoint between the winter solstice and the vernal equinox, embodying the increasing daylight and the gradual return of warmth. The image below shows traditional symbols for Imbolc.

Dennis says of his service: As Unitarian Universalists, we have a Principle that tells us about our role in the world. It says that we are a part of the world, of the "interdependent web." It also tells us to have respect for that web. How can you have respect for something if you don't understand it? One of the most important tools we have for that understanding is science, of course.
